Please ask for information of time period and combinations not indicated above.

*Please note that when the hall is hired for a concert, the basic fee covers the costs for standard incidental facilities and equipment (marked with *), and the costs for technical staff (one sound and lighting engineer, one stage staff) as well as the receptionist. However, additional costs will be requested for instrument rental, its tuning as well as any other facilities, equipment, and personnel(s) for the operation.

*The exact time period will be confirmed with the hall at the time of application.

*Please note that 'time period' includes the times for preparation and clearing up (ie. load-in, load-out, tuning, rehearsals etc).

*In principle, the hall does not recognise any extension of rented time periods.

*If the venue is hired for recording purposes only, the standard charge is JPY 25,000 (tax excluded) per hour.

*If application is received between the beginning of 15 months and end of 13 months prior to the date of concert, the early reservation reduction is applicable (10% of the basic tariff). This is valid from concerts from October 2011 and onwards.
